Front Cover

THERMALLY EFFICIENT BUILDINGS FROM PERLEY-HALLADAY.

EXPERIENCE

Since 1954, Perley-Halladay has specialized in designing and constructing refrigerated buildings and other types of insulated structures. With thousands of successfully completed projects, Perley-Halladay has established itself as one of the nation's most experienced cold storage construction firms. Our extensive work history spreads across numerous industries and applications which require refrigerated or temperature-controlled environments...

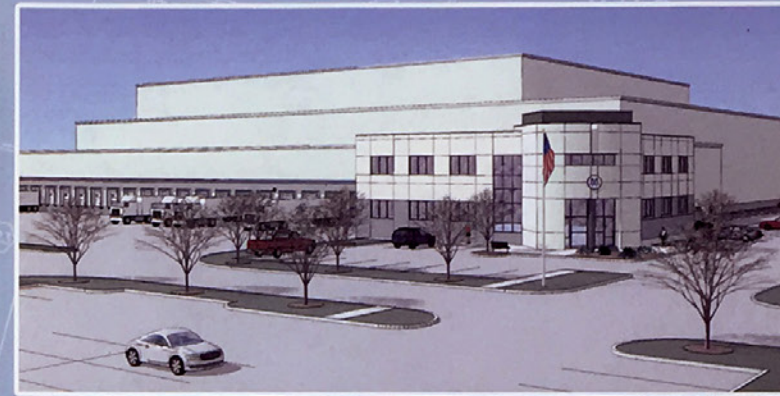

- Refrigerated warehouses and logistics facilities
- Food processing plants
- Interior cooler and freezer retrofits
- Pharmaceutical research and storage rooms
- Environmental rooms and test chambers
- Temperature-controlled metal buildings

EXPERTISE

A successful project starts with a good design. Our in-house design team has the knowledge and the expertise to address all of the critical aspects of your project.

- Conceptual design assistance
- Thermal details including roof and freezer floor systems
- Structural design
- Refrigeration design (Central plant and packaged systems)
- Materials Handling Systems (Product flow, racking, automated crane design, dock equipment)
- Plumbing and electrical plans
- USDA, FDA, FM, and GMP requirements
- Hazard Analysis and Critical Control Point (HACCP) – Food safety
- Leadership in Energy and Environmental Design (LEED)

PERLEY-HALLADAY: BUILDINGS THAT MEET YOUR SPECIFIC NEEDS.

EFFICIENCY

Perley-Halladay understands the importance of completing your project on schedule, within budget, and with the highest level of quality workmanship. We accomplish this through efficiency from the initial design phase to job completion.

- Construction crews and project managers who have years of experience in cold storage construction.
- Consistent cold storage details that have stood the test of time.
- "Fast-Track" installations utilizing prefabricated insulated panel systems.
- OSHA-trained personnel

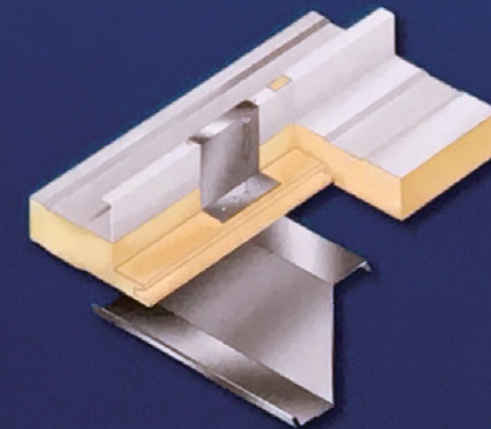

HOLD THE COLD

Utilizing prefabricated, insulated panel construction, Perley-Halladay buildings are quickly installed, vapor-tight, and provide the best insulation values available.
